PRESS RELEASE
June 1, 2011
For Immediate Release

**June is National Scoliosis Awareness Month: Fort Collins Clinic
Giving Free Screenings**

(Fort Collins, Colorado)

June is the official National Scoliosis Awareness Month. In honor of this, [Colorado scoliosis clinic](#) Spine Correction Center of the Rockies is giving [free scoliosis screenings](#) for the month of June.

Typical scoliosis treatments involve painful and expensive surgeries and braces. Spine Correction Center is one of less than 10 clinics in the country offering a revolutionary alternative from the CLEAR Institute that is non-surgical and non-bracing.

Dr. Michael Farrell and Dr. April Cardwell, lead practitioners at the clinic say that the free screenings are extremely important because people can discover an entirely different route to effective scoliosis treatment that saves time and pain.

Scoliosis is a condition that occurs in about 4.5 percent of the population (about 5 people out of 100) and occurs more often in women than men. Scoliosis occurs when the spine of the back forms a C or an S shaped curve. A few symptoms of scoliosis are back pain, leg pain, hip pain, and altered walking gait. The condition is often first diagnosed between the ages of 9 and 15. About 9 out of 10 cases of scoliosis are idiopathic, meaning the precise cause is not known.

To set up a free scoliosis screening, call Spine Correction Center at 970-226-1117 or email them at frontdesk@spinecorrectioncenter.com.

About Spine Correction Center of the Rockies

The Spine Correction Center of the Rockies is a new concept spinal rehabilitation facility that focuses on correcting abnormalities with spinal alignment in the neck and back. The Spine Correction Center uses state of the art equipment and therapies to restore wellness.

[Dr. April Cardwell](#) attended York College in York, Nebraska graduating with a Bachelor of Science

degree in General Science. Dr. Cardwell received her Doctorate of Chiropractic degree from Palmer College of Chiropractic in Davenport, Iowa in February of 2006. Prior to her graduation from Palmer College of Chiropractic, she traveled to India to provide humanitarian care to hundreds of people. In addition to her chiropractic education, she has had extensive post graduate study on spinal rehabilitation focusing on spinal curve restoration at the Pettibon Institute. In 2009, Dr. Cardwell became certified in standard treatment of scoliosis by the Clear Institute. She has practiced with Dr. Michael Farrell at the Spine Correction Center of the Rockies in Fort Collins, Colorado since July of 2007.

[Dr. Michael Farrell](#) received a Bachelor of Science from Colorado Christian University in Lakewood, Colorado majoring in Business Administration with minors in Science and Management with an emphasis in Leadership Studies, Outdoor Leadership, and Biblical Studies. In June of 2006 Dr. Farrell completed his professional education at Palmer College of Chiropractic in Davenport, Iowa earning a Doctor of Chiropractic degree. He has furthered his education through extensive training in rehabilitation programs including the Pettibon technique. Dr. Farrell has traveled to India to provide humanitarian natural health care to people there. He resides in Fort Collins.
